WEB DEV | GRAPHIC DESIGNER

About Me

Hi, I am a 21-year-old aspiring web developer and graphic designer from Phinma Araullo. My goal is to merge aesthetics with functionality, ensuring that every project I undertake not only looks great but also serves its purpose effectively. I am passionate about creating user-friendly interfaces and experiences that resonate with users and meet their needs.

Education

Tertiary   *2025*

Phinma Araullo University - South Campus

- Bachelor of Science in Information Technology Major in Web Development

Secondary   *2021*

Core Gateway College Inc.

- Specialized in Gas (General Academic Strand)

Expertise

Web Development

Using HTML, CSS, JavaScript, and Bootstrap to develop functional, responsive, and user-friendly web designs.

Graphic Design

Using FIGMA and CANVA to design user-friendly interfaces that enhance user experience and engagement. Also creating visually appealing logos, banners, and brochures that effectively communicate brand identity and messaging.

Tester

Utilizing U-Test to conduct comprehensive quality assurance testing. My testing process includes identifying bugs, validating features, and providing detailed feedback to enhance user experience and overall performance.
